Fed's Say: "Big Banks and Small Investors Can Now Invest With Venture Capital In Pre-IPO's ..." *Formerly A Sanctuary Limited To Millionaires... The Times Have Finally Changed!*

"STARTUPS"...*The Investment Vehicles Of Millionaires Referred-to As Pre IPO's*, are no more risky these days than any other investment. **More Important...they historically have the potential, and do, bring in massive gains.**

EX: If you invested \$100 in Snapchat (NYSE: SNAP) in its early days (before it went public) and "cashed-out" at its IPO (the day it went public in 2017)... **Your \$100 Would Have Turned Into \$22,000. That's A 21,900% Gain!** *Gains you don't see on the stock market or from any other investment vehicle!!!*

The problem, until now, has been... Venture Capital and Pre-IPO's have only been available to the **Very Rich** who have had the (REQUIRED) millions to invest. **But That's All Changed:**

US Regulators Say: "...Small Investors now have the ability to invest as *Early Investors* in Pre-IPO's (*Before* the company's initial public offering) where previously, the opportunity was reserved for Million-Dollar Accredited Investors; Pension Fund Investors, and; Institutional Fund Investors."

In 2012, Barack Obama signed the Jumpstart Our Business Startups Act, or [JOBS Act](#). The bill makes it easier for: 1. Companies to "Go Public", and; 2. Unaccredited Investors to invest without having to risk their life's savings ...**And Small Investors Are Jumping-In With Both Feet!**

And Now You Can Get In On That Action As Well: [Cartel Equity Venture Capital Fund has just committed \\$40 million to FranCap Corporation](#), The Company That Wrote The [E-Book](#) On Franchise Development.

*If you're looking for Mitigated Risk...*

*If you're looking for Substantial Tax Write-Offs...*

*If you're looking for Tax Free Income on the first 20% of Your Earnings...*

*If you're looking for an investment opportunity in a proven industry and a business model that addresses a quarterly income stream from an escalating number of successful franchisees and ROI percentages in six digits developed from a number of private franchise brands at their IPO, [The Next Two Minutes Could Be Your](#)*
